MOSCOW-LY FLIERS IN OAKLAND

SENATE ADOPTS DEBENTURE PLAN OF FARM RELIEF

THEATERMAN TO TAKE STAND

LOS ANGELES, Oct. 19.—(UP)—Alexander Pantages, middle-aged theater owner, will go on the witness stand early next week in his trial on charges of attacking 17-year-old Eunice Pringle, an amateur dancer.

Pantages told the United Press today that he "expected to tell everything I know on the case," and that he believed he would be placed on the stand "either late Monday or Tuesday."

Pantages emphatically denied to the United Press rumors that he had admitted he was "licked already."

"I have made no prophecy and I expect to make none," he said heatedly.

Clary Identified
Identification of the "man named Clary" was established today. The man bearing that name, previously known only as a coffee salesman, was identified as Charles Clary.

He telephoned newspaper offices, told his full name and said he had no special interest in the Pantages-Pringle case, other than to see the theater man get a fair deal.

However, two defense witnesses have testified that he took them to see Pantages at the latter's home. The witnesses were Leo Zlackert, Garden Grove grocer, and Garland Biffle, law book salesman.

"I am not in the employ of Pantages and I never have been," Clary telephoned. "I wanted Pantages to get a fair trial and I thought it was my duty as a citizen to help him."

"I knew Zlackert in Garden Grove because I went there in my capacity as a salesman. He told me what he said he knew about Eunice Pringle and I suggested he go to Pantages with me."

"While I was in Bakersfield," Clary explained, "I heard that Biffle was to be subpoenaed, so I went to Stockton to see him and suggested he go with me to see Pantages."

Clary said he was willing to be questioned by district attorney Buron Fitts, who had Biffle jailed after his testimony on a charge of perjury.

C. C. C. TENNIS AWARDS TODAY

The championship trophies of the Contra Costa county tennis association will be presented to the winners of the county tourney this morning at a breakfast of the Contra Costa Tennis association in the Hotel Carquinez at 10 o'clock.

John Murio will be awarded the singles trophy for the county at that time, and Dolph Muehleisen, runner-up in the singles division, will also receive an award. Bob Muench and Muehleisen will be given the reward for capturing the county doubles championship.

Robinson and Laine are the runners-up in the doubles division. The awards will be presented by W. L. Seawright, president of the Richmond Tennis club.

Pop Fuller, whose proteges, Helen Wills and Helen Jacobs, have started the tennis world, will speak at the breakfast this morning. Fuller is an ardent tennis enthusiast and his message is expected to be of great interest to the local association.

The Contra Costa Tennis championship tournament, was held last Sunday on the Richmond city hall court. A. S. Remell was chairman of the tournament.

Murio, singles champion, now occupies the position formerly held by George Green, and Suhr and Randall are vacating their position of doubles champions for Muench and Muehleisen, new doubles titlists.

With Gleeful Song In Heart

J. S. MURPHY, song writer left Brooklyn Supreme court after his own eloquence convinced the judge that the sentence imposed on him 10 years ago was unjust.

FLEAGLE PALS CLAIM ERRORS, ASK NEW TRIAL

LAMAR, Colo., Oct. 19.—(UP)—Byron G. Rogers, counsel for George J. Absider and Howard L. Toyston, ordered changed by a jury last week for the murder of A. N. Parrish, president of the First National bank of Lamar, filed a motion for new trials for the pair in District court here today.

Twenty-two errors were alleged in the case of Rogers and Toyston in Judge A. F. Hollenbeck's Monday afternoon for hearing the motions. If the court denies them, the two confessed bandits will be sentenced to die on the gallows.

The principal claim of error made by Rogers concerned the introduction of testimony about the murders of E. A. Keshner, bank teller, and Dr. W. W. Wincinger, Dighton, Kans., physician.

Meanwhile, plans were made for the start next Tuesday of the trial of Ralph Fleagle, leader of the bandit band, the state will not ask the death penalty in Ralph Fleagle's case, because he confessed and helped the state in its task of convicting his pals.

Bandit Cleared Of Murder Count

NOWATA, Okla., Oct. 19.—(UP)—Jess Little, last survivor of the Poe-Hitt gang of Oklahoma outlaws, was back "at home" last night behind the penitentiary bars, through which he has viewed the world the past 12 years.

His latest "hit" with the law, however, was in his favor. Judge Hal Johnson today instructed a jury hearing Little's murder trial to return a verdict of not guilty in the slaying of Morris Charles Bullock. Judge Johnson also dismissed the murder charge in connection with the slaying of John Garretson, storekeeper who with Bullock pursued bandits that looted his store in Blue Canyon to meet death from ambush.

Little is serving a life term on conviction of several crimes from bank robbery to attempted murder.

TARIFF BILL DEFEAT SEEN

WASHINGTON, Oct. 19.—(UP)—The farm bloc moulded the tariff bill more to its liking when it joined in coalition with the Democrats in the senate today and adopted the Norris debenture plan of farm relief as an amendment to the administration tariff measure.

Contributing fourteen western Republican votes to the margin of victory, the bloc led by Norris of Nebraska, and Borah of Idaho, overrode the opposition of President Hoover and the presidential leaders in the senate and won 42 to 37.

What the amendment will do to the tariff bill is a matter of speculation but administration leaders walked from the chamber feeling their bill already heavily laden with controversial amendments, was "about as good a bird" now that the debenture millstone had been loaded about its neck. They said they could never send the bill to the White House with the repeal of the flax provisions and the debenture feature, the two outstanding "clauses" wrought thus far by the "strong independent Republican and Democratic group."

Forces Jubilant
Confident forces were jubilant. They shed no tears at the pessimism of the leaders and argued that no tariff bill would be better than the one offered by administration members of the senate finance committee six weeks ago.

The coalition last spring succeeded in writing the debenture (Continued on Page 8)

S. O. SLASHES CRUDE PRICES

SAN FRANCISCO, Oct. 19.—Taking its first step in an effort to enforce conservation of petroleum, the Standard Oil company today slashed the price it will pay for crude oil by more than 50 per cent.

The reduction will take effect Monday on crude oils at the wells in Santa Fe Springs, Signal Hill and Seal Beach.

The sole purpose of the move, company officials stated, is to end the indefensible waste of great quantities of natural gas and a resulting over-production of crude oil in the fields in question.

The statement declared that 15 per cent of the industry is blocking the efforts of 85 per cent of the producers and royalty holders to carry out the conservation program.

Two Injured In Car Crash

Mrs. Violet Blondell, of Oakland suffered cuts and bruises and a wrench back while her companion, Victor Dunn, also of Oakland, was cut and bruised in an automobile accident at Cutting boulevard and San Pablo avenue last night.

According to police reports, the car being driven by Dunn was struck by a north bound Yellow stage. The Dunn car turned turtle and was completely wrecked.

The injured were treated at the Humboldt Emergency hospital and later returned to their homes.

Traffic Police Get New Badges

State Traffic Police patrolling Contra Costa county highways yesterday received their new badges from the state, replacing the old county badges.

Most Beautiful Of Hungarians

Mlle. LYA MARA, well-known Hungarian actress, who will play the part of Queen Caroline, who was refused permission by the King to be present at his coronation.

BOY CURSES JUSTICE AS DOOM HEARD

TULSA, Okla., Oct. 19.—(UP)—"To the devil with justice!" This epithet, the most dramatic sentence Ted Cole ever uttered in his erratic 17 years, may follow him to the grave. It may mark in the memory of his mother, the stone which will rise above his tomb.

Cole has stood before the court, smiled insolently, and while flirting with a girl court follower, heard the death sentence pronounced against him here for robbery with firearms—the Oklahoma extreme limit.

Cole smiled as he pleaded guilty to the charge, but paled when Judge Saul Yager—recalling that another Tulsa youth had probably mortally wounded a patrolman in a similar escapade—condemned him to die.

Cole paled but he did not lose that contempt for law which he had carried him through his young years to the reformatory and out again to crime.

"To the devil with justice," he cursed in a side voice to a fellow prisoner on the docket. "I threw myself on the mercy of the court and they sure gave me justice."

Cole was implicated in the robbery of a bottling plant. A youthful crime wave has been apparent in Tulsa lately and Tulsa still recalls bitterly the brutal slaying of two patrolmen near here by Dick Gregg, who also made his living with a gun.

Thompson Rites Set For Monday

Final rites for Arthur William Thompson, 53, will be held from the Wilson and Kratzer chapel tomorrow afternoon at two o'clock. Services will be under the direction of Rev. C. G. Lindemann, pastor of the Wesleyan Methodist Episcopal church here.

Surviving him is his widow, Mrs. Emma Thompson.

BILLIE WILSON ILL
Billie Wilson, eight year old son of Mrs. Nita Wilson, of 112 South Forty-first street, yesterday had his tonsils removed at the Spalding hospital.

U. C. ELEVEN WINS OVER PENN

PHILADELPHIA, Oct. 19.—(UP)—The Golden Bears of California, 3000 miles from their own gridiron, found the sun shining warmly and everything homelike at Franklin Field today and took advantage of the occasion to defeat the fighting University of Pennsylvania eleven 12 to 7.

Sweeping into action from the opening whistle the Bears scored a quick touchdown without losing possession of the ball. Benny Lom, who was a flashing triple threat throughout the game, led the California rush.

A blocked punt and other breaks gave Penn a chance to make up for this initial disappointment. A few minutes later Red Walter Masters plucked a neat lateral from Dick Gentle and skipped around end for a touchdown.

As Benny Lom missed his try for goal and Masters scored with Penn leading 7 to 6.

Rickeys Landed
But in the second quarter, the Golden Bears, taking deep breaths of the warm sunbaked which baked the turf of Franklin Field and reminded them so much of home, went right to work and got the winning touchdown without further delay.

Advancing from midfield without a pause, California took to the air for the one time of the entire game and did so most successfully. Benny Lom flinging (Continued on Page 8)

TWO FINED ON RUM COUNTS

Judge C. A. Odell yesterday imposed a fine of \$500 each in the cases of Bartell Batista and Joe Panier, Richmond men, who pleaded guilty to illegal possession of liquor.

The pair was arrested recently at the home of Batista, at Thirty-first street and Mechem avenue, large quantities of illicit liquors being confiscated, according to police records.

'World's Greatest Landlord' Saved By Inhaler Crew

NEW YORK, Oct. 19.—(UP)—Harry S. Black, called the "world's greatest landlord," was saved from death early today by a pullmotor crew after he had been found unconscious in his bathtub in his apartment at the Hotel Plaza.

Black, who is president of the United States Realty and Improvement corporation which controls the Plaza and other hotels, had been ill recently, and was under the care of a nurse. Last night Black told his valet he would take a bath and then go out for dinner.

When his nurse entered the apartment and learned he was still in the bathroom she forced open the door.

Black was lying face down in the tub, which was overflowing. He was pronounced out of danger only after an inhaler crew had worked on him for nine hours.

Arabs Protest Death Sentences

JERUSALEM, Oct. 19.—(UP)—Arabs staged a peaceful demonstration at Nazareth today in protest against the sentencing to death of three Arabs convicted of murder in connection with the recent Palestine disorders.

The three condemned men, Ahmed Nabir, Naif Renim and Aref Renim were charged with the murder of Isaac Maiman, a Jew, at Safed.

Tot Slayers' Kin

OLDER BOYS in county home schooled Mulligan boys in vice which led to slaying of Albert Mikenas, mother, Mrs. Eva Mulligan, said at New York. She's shown with three other children, Joseph, 6, Dorothy, 4, and Leslie, 2. Police are seeking the crime tutor.

CARDS BEAT OREGON 11

STANFORD UNIVERSITY, Oct. 19.—Pop Warner's Cardinal grid machine actually got "pepped" today and started a clean up campaign against the Oregon State eleven. When the final whistle blew, Stanford was on the long end of a 49 to 7 score.

The 25,000 spectators had just settled themselves comfortably in their seats when Oregon caught the Cardinals that fumbled and scored on a pass from Buckner to McKelip.

Groovy Cardinals shook their heads, muttered harsh words, beneath their breath and then unceremoniously power plays that stretched, tore and mangled the Oregon line, leaving it a pulpy mass, beaten badly.

Powerful Plays
First Field-backer smashed from the one yard line to a touchdown and Snelling passed to Cagliari to tie the score. A few seconds later Stanford drove down the field, pushing the Oregon team (Continued on Page 8)

Y. M. C. A. Report At Meet Monday

The board of directors of the Richmond Y. M. C. A. will break fast Monday morning at the Carquinez hotel, at which time Raymond Carlson, secretary of the national organization, will present the financial report of the Richmond Y. M. C. A. for the fiscal year. Many plans for the coming season are expected to be made.

Doctor W. W. Giberson will preside at Monday's meeting in the absence of P. M. Sanford, president of the Y. M. C. A. board of directors. Sanford is on a trip to Nevada at present.

RUSS PLANE GIVEN BIG OVATION

OAKLAND, Oct. 19.—(UP)—The Land of the Soviets, on a flight from Moscow to New York, landed here at 3:10 p. m. today from Pearson field, Vancouver, Wash.

The five Soviet aviators were met by delegations of Russians from all parts of the San Francisco bay district and given a tremendous welcome.

After an official ceremony of welcome at the airport they were taken to San Francisco and a banquet was to be held in their honor in that city tonight.

They declined to announce future plans and told their western hosts that they would "remain in San Francisco several days before taking off for the east."

7 IN COUNTY FACE PADLOCK

MARTINEZ, Oct. 19.—Abatement proceedings against seven places of business in Antioch and Pittsburg, were instituted today by A. B. Tinning, district attorney of Contra Costa county.

The abatement proceedings are the aftermath of recent prohibition enforcement raids by the county dry squad in Antioch and Pittsburg. The owners and lessees are charged with violation of the prohibition laws.

Following are the places upon which it is asked that abatement orders be placed, and their owners: Acropolis, Visconco, et al, residence; Acropolis, Antonio Davi et al, Sunrise Buffet, 1111 Pittsburg; Alfredo Ferranti, 1111 Pittsburg; Hotel in Antioch; Jettette Harding et al, Flor de Italia in Antioch; Mamie Aiello, Los Mendocinos (Club in Pittsburg); Giuseppe, 1111 Pittsburg; Hotel in Antioch; and Peter Challo, residence at 135 East 2nd street, Pittsburg.

Girl Injured In Crash Dies

MARTINEZ, Oct. 19.—Injured in an automobile collision near Pittsburg on Sept. 8, Miss Lenore Franklin, 16, of Oakland, died at an Oakland hospital last night, according to word received here today by Traffic Capt. George Belon.

Miss Franklin was fatally hurt when the car in which she was riding blew out a tire and turned turtle, Lew Moore, of 315 Escobar street, Martinez, was the driver of the car.

Banker, Claspng Rosary, Found Dead In Shallow Stream

KANSAS CITY, MO., Oct. 19.—(UP)—His hands clasping a rosary, his knees bent in prayer, the body of Otto Ails, 32, trusted Kansas City bank cashier, was found in a stream here today.

It was the belief of the coroner's office that he had committed suicide. If he did, he must have forced himself to hold his head under water. The pool from which his body was removed was little more than knee deep and the stream is more shallow above. On the bank were marks where he had knelt.

Suicide theories were scouted by bank authorities who examined his books early today and found them proper. His wife, who up to a late hour today, had not been told of his death, and still believed him missing, said their home life was happy. He had two small children.

CHEVROLET SIX SALES ON INCREASE

The phenomenal success registered by the Chevrolet Six offers ample proof of the power, performance and smart appearance for which the car was praised when it was first placed on the market at the first of the year, according to the Golden Rule Chevrolet company at Fifteenth street and Macdonald avenue. Critics are uniform in the opinion that the introduction was one of the greatest steps in the automotive industry, symbolizing as it does the introduction of a six cylinder car into the low-priced field.

Various factors of which the Chevrolet six can rightfully boast—such as ease of handling and smooth riding, as well as economy of operation, combined in gaining the public approval for the product. Public approval is the secret of the success of any automobile and the public has responded beautifully to the Chevrolet six.

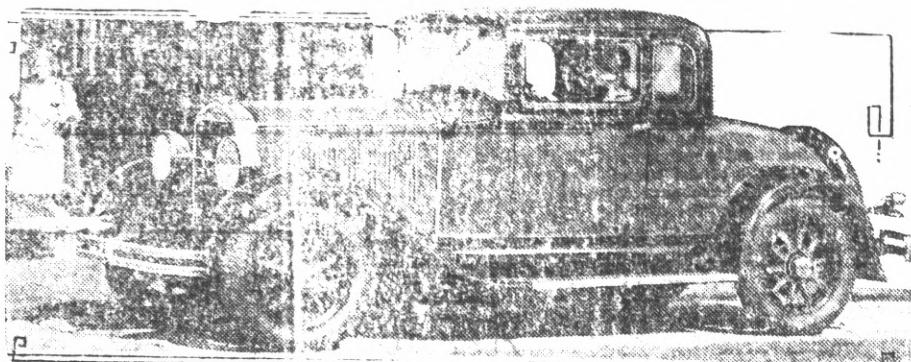

Early in August the one millionth car left the assembly lines at the factory. At this date over 1,300,000 cars have been delivered to their owners. The tremendous popularity of the six indicates that it is not at all impossible that 1,400,000 cars will be sold this year.

Company Landed

Close students of national sales are paying tribute to the policies of General Motors in the handling of the Chevrolet six. These students point that General Motors experimented over a long period of time before obtaining the results they desired. The effect is that the public is cognizant of the fact that General Motors has produced a truly remarkable automobile in the Chevrolet six.

Engineering authorities who recently visited the Chevrolet factory stated that the new valve-in-head six cylinder engine, which in tests developed 46 horse-power at low engine speeds, is undoubtedly the most forward step in automotive engineering. They point out that the Chevrolet boasts of ample flexibility which provides plenty of power for all occasions, whether it be a steep grade or a quick get-

A Coupe For Four

STUDEBAKER COMPANY recently announced the new Dictator eight coupe for four. The car is featured by distinctive lines and authoritative color schemes of Studebaker coachcraft.

STUDEBAKER CO OFFERS NEW COUPE

An answer to the motoring public's ever growing demand for fast, comfortable, flexible and snappy cars at a low price is now provided in the new Studebaker Dictator eight coupe for four, according to L. J. Thomas, Studebaker executive dealer here. The car priced no higher than many sixes, the new Dictator eight for four offers championship eight cylinder performance and it is a "economical" car of fuel and oil as the thrifty sixes. The new Dictator eight coupe for four is especially suited for the man or woman who desires the intimacy of a closed car combined with the rakishness of a roadster. It is also appropriate as a second car for business or shopping in place of the town car or limousine. An ideal car for sport and social occasions, the Dictator eight coupe permits plenty of room for passengers or friends.

Beautiful Car

The new Dictator eight coupe is a car of exquisite beauty. Long, low and graceful, it aptly suggests the speed and power of its straight eight engine. Flowing lines, schooled in Studebaker coachcraft, have incorporated every requirement of fine coach work. Wide, deep fenders, carried low over large balloon tires, extend from the radiator to the curved rear deck. Twin beam headlights, in glistering chrome and twin round lights are nestled in shape. All exterior bright work is chromium plated.

The color combination in the new Dictator eight coupe for four is silver pine with black running gear and orange coachstriping. It is selected one of the smartest of the season. A narrow, light panel in state green emphasizes the low wing gear, attained by a double drop design of new coachcraft.

The interior is upholstered in fine mohair. The wide driving seat, accommodating three passengers, is comfortably padded and scientifically shaped for complete riding ease. The seat is adjustable to the most suitable driving position. Doors are extra wide, allowing easy entrance and exit. The rumble seat is amply proportioned for two passengers and is easily accessible when not in use. It affords space for the storage of baggage. It may be securely locked.

New Comfort

Even anxious for the added comfort and security of passengers, Studebaker engineers have incorporated many notable convenience and safety features. The windshield is of shatter proof glass. The steel colored steering wheel is the unbreakable thin grip type. Two automatic windshield wipers assure visibility at all times. Four wheel brakes have doubled the effect of the standard safety codes. The hand brake acts on all four wheels.

Comfort and riding ease are enhanced by improved Studebaker suspension. Long, pilot springs and powerful hydraulic shock absorbers iron out road inequalities while the rearchecking of front springs increases steering stability and eliminates wheel tramp and shimmy at high speeds. Extreme handling ease in crowded traffic results from a narrowing of the front of the chassis and a consequent shortened turning radius.

The new Dictator eight coupe for four is equipped with a co-incident lock to steering and ignition and the usual instruments including hydrostatic gasoline gauge and engine thermometer grouped under glass in individual frames on the dash. The head and tail lights are controlled from the steering wheel. The engine is the Studebaker Dictator straight eight, worthy successor to the famous Dictator motor which used 5000 miles in 4751 minutes. The new Dictator is also available on the six cylinder chassis.

that an overwhelming number of them deal with the eastern area of the country, there being only three in fact, which could be called strictly western. "The west has not been unusually favored," it said.

PARK STAMPS URGED BY CLUB

Auto Deaths On Increase

Fatal motoring accidents not only head the list but have shown the greatest proportionate increase since 1911 of any type of mishap, according to the public safety department of the California State Automobile association. In 1911 auto accidents caused 22 deaths per 100,000 population but now that ratio has risen to 19.5 deaths for each 100,000 individuals.

Falls, second among accidental death causes have decreased from 155 per 100,000 in 1911 to 14 and railroad fatalities have dropped from 13 to 6.4. Accidental drownings also are on the wane, being 9.4 in 1911 and 6.7 now, while burns, excepting conflagrations, killed 7.7 persons in each 100,000 during 1911 and only 5.6 now. Even street car fatalities are lower, being 1.3 as compared with the 1911 figure of 3.2.

area ers. The Imperial sedan presents an unusually smart appearance for town driving while the sport coupe is finding favor with the younger folk who want appearance and power in their selections. The comfortable and roomy rumble seat in the sport coupe is just one of the modish features that "flaming youth" finds so appealing.

As a part of a comprehensive program for the promotion of travel in western states, the American Automobile association has recommended the issuance of a series of postage stamps by the government depicting the beauties and recreational attractions of the national parks. The California State Automobile association, A. A. A. motorists' organization in this state, plans out that the value of the suggestion is emphasized by the fact that most of the nation's park areas are located in the west. It has been further suggested, according to the State Automobile association, that issuance of a special series of stamps be accompanied by use of a cancellation stamp reading "Visit our National Parks." During the summer motor tourist travel season this would further serve to call attention to the great scenic resources of the west.

The A. A. A. proposal was made in a letter addressed to Dr. Ray Lyman Wilbur, secretary of the interior, by Ernest N. Smith, executive vice president of the American Automobile association. Since the department of the interior has charge of the national parks, Smith pointed out that Secretary Wilbur could, with entire propriety, call the proposal to the attention of Postmaster General Brown and his other colleagues in President Hoover's cabinet.

"This series," said the A. A. A. executive, "could be made one of the most beautiful ever issued by our government and could serve to attract the attention of millions of our citizens to these great national resources controlled by the government in the interest of all the people."

"I am confident that our suggestion will receive an earnest and sympathetic consideration from the Secretary of the Interior. There is no man in public life in America today who has a keener appreciation of the value of our national parks to all our people or who is better equipped to champion such a cause."

"The urge to travel is today stronger than ever before. The era of long distance motor touring is here, while the national parks offer an objective that combines all the factors that make for a happy, healthful and inspiring vacation. Now the roads are being built through these great scenic regions, held in perpetual trust for the people, the government has a unique opportunity to advertise the glories of our preeminent domain."

The letter embodying the proposal of the nationwide motoring body pointed out that an analysis of speech stamp issues disclosed

More Cities Adopt State Highway Code

Two more communities in this state, Sunnyvale and Los Banos, have adopted the uniform traffic ordinance for California cities. It is announced by the California State Automobile association, sponsor of this model code to harmonize municipal traffic regulations. This brings to 49 the number of cities in northern and central California which have brought their municipal traffic codes into line with the single standard advocated by the motorist's organization. The total number of cities in the state having the uniform traffic ordinance in effect is now 955.

The California uniform code is the basis of the model municipal traffic ordinance adopted by the Hoover conference on street and highway safety and recommended for nationwide adoption. This code has

Don't Bend Center Point Of Spark Plug

When adjusting spark plugs on your car do not bend the center point, advises the free emergency road service of the California State Automobile association. Always make the adjustment by bending the edge or grounded part of the plug.

Gas Generated By Battery Dangerous

The storage battery in your car should be given attention frequently. Each time it is filled clean the top with a damp cloth. Do not short it with a pair of pliers as this draws out excessive current, and remember that it is dangerous to bring an open flame near the top of the battery at any time.

been adopted in 16 large cities of the country in addition to several hundred smaller communities in two states, New Jersey and Michigan.

RICHFIELD GAS LAUDED BY DRIVER

COLORADO SPRINGS, Colo.—Oct. 19.—Cannon Ball Baker, who has probably set more road speed records than any other motor car pilot in the world, disclosed today that his recent Pike's Peak accomplishment—six consecutive round trips to the peak—was made with Richfield "Gasoline of Power."

In a telegram to C. M. Fuller, president of the Richfield Oil company, Cannon Ball Baker, telling of his mountain climbing feat with his stock model Franklin, paid this tribute to his fuel: "Richfield performance again touched perfection as Richfield was used in the establishment of the new world's record on Pike's Peak auto highway. I drove a five passenger stock model over same course as followed in annual Labor Day races for six consecutive round trips. Total distance covered 150.8 miles, course driven included 205 turns, average speed 34.29 miles per hour."

It was commented on here, following Baker's announcement that his Franklin had been powered with Richfield, that this same gasoline was utilized by the driver of the winning Studebaker which topped the cup for the Labor Day classic climb up this same mountain side.

Use Caution When Passing Automobile

Motorists should slow up at all turns in the road, according to the California committee on Public Safety. Blind corners are dangerous. Be prepared to stop when it is impossible to see what is coming from around the corner.

Always sound your horn as you approach a curve. Use horn but don't forget to use your brakes. You can't blow pedestrians out of your way. Give them a chance to cross the street. Allow them the same privilege as a pedestrian that you would expect, says the committee.

CHEVROLET SIX —the Car of Universal Appeal!

SINCE January 1st, over a million one hundred and thirty-five thousand six-cylinder Chevrolets have been produced. Naturally, this is an outstanding industrial achievement. But it is more than that. It is a great public endorsement of Chevrolet's policy of progress: to build a quality automobile whose design incorporates every possible feature of progressive engineering... whose beauty is distinctive, smart and satisfying... whose reliability is assured by fine materials and precision manufacture... and whose price is so low as to be within reach of the great majority of the people. We want you to know that this policy has meant in the development of the Chevrolet Six—the modern car of universal appeal. We want you to know that Chevrolet has brought within the reach of everybody, everywhere, all the advantages of smooth, six-cylinder performance. Come in today!

COME IN—TAKE A RIDE IN THIS SENSATIONAL SIX

You're out-of-date without an EIGHT!

On every hand you hear people talking Eights. And, what is more convincing, you see them buying Eights.

In 43 states, for the first seven months of this year, new car registrations above \$1000 showed a 94 per cent increase in Eights—an 18 per cent decrease in Sixes. (Five states do not compile registrations by engine types)

Every fine car in America is an Eight. In fact, 41 per cent of all makes of American cars today are Eights.

Is it any wonder that thousands intending to buy new Sixes are hesitating?

What is a Six going to bring in next year's trade-in markets? How can it possibly measure up in value with an Eight? Those are the ques-

tions that every thinking motorist is asking himself.

For, right now, at the price of a Six, you can buy a brilliant new Studebaker Eight. A champion Studebaker Eight with all the extra power, extra smoothness, extra flexibility and extra value that only an Eight can give.

An Eight built by Studebaker, now enjoying its 77th successful year—now the largest producer of Eight-cylinder cars in the world. An Eight by Studebaker, holder of 11 world records of speed and endurance and more American stock car records than all other cars combined.

Choose an Eight from the three great Studebaker lines of Eights now available at new low One-Price prices. Your car will be worth more a year from now if it's an Eight.

PISTON PIN IMPORTANT PART

"Even so small a thing as a piston pin may play an important role in the pleasure a motorist derives from his car, and this little device carries a big size, its particular function being to transmit the full force of an explosion from the piston head to the connecting rod," states J. P. Strom, Richmond, Oakland Pontiac dealer.

"A terrific strain comes on it not only every time there is an explosion of gas in the cylinder, but also each time the piston reaches the top or bottom of its stroke," Strom pointed out. "Wear inevitably results both in the pin and the piston head, which it is, resulting in looseness and rattle when the car is humming along at a constant speed. When not harmful to the engine, this pin rattle frequently annoys drivers."

"To insure that no such loss has been an engineering problem since the beginning of the industry. In their efforts constantly to improve the quality of the modern car, the automotive engineers have this season been busy with a new pin design, a new pin for share of a nation and search."

"No until a new type of piston pin construction was discovered did the problem yield to intensive engineering study. A new principle of pin construction now has been evolved which practically eliminates pin rattles for the life time of a car. This involves the pressing of an aluminum plug into each end of the pin. Aluminum, highly sensitive to temperature changes, expands under the heat of a running motor and the 'swelling' makes the pin fit tightly in the piston."

Grind Car Valves Twice In Year

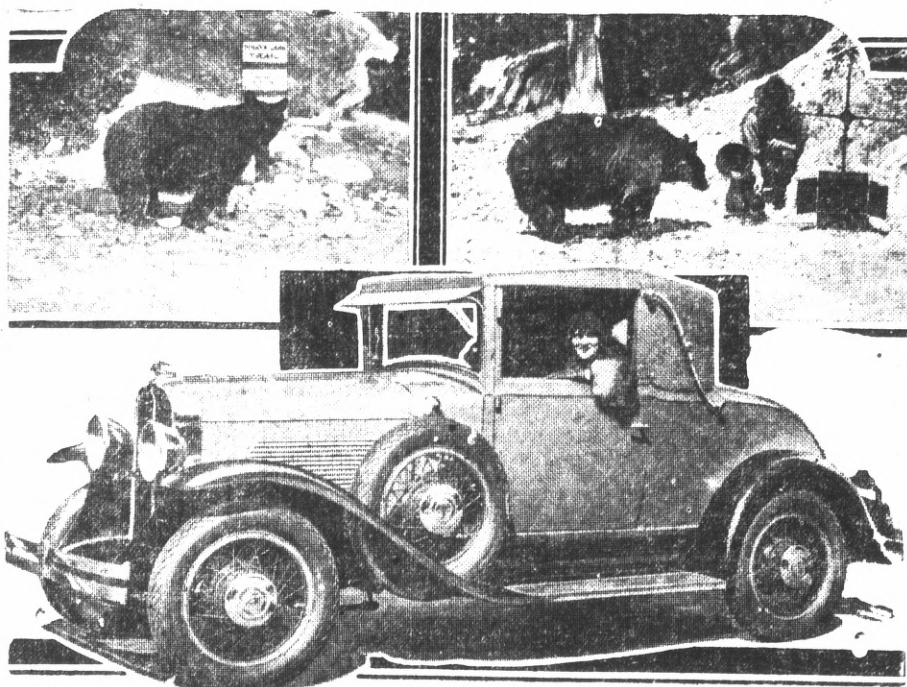

A good schedule for keeping a car in first class mechanical condition and operating economically is reported as follows:

Twice a year have carbon removed, valves ground, and engine tuned up. Every three months have brakes inspected, and adjusted if necessary. Twice a year take cars to electrical service station and have ignition starting, and lighting systems inspected, and minor work done. Check lubrication according to the chart furnished by the factory.

Speaking Of Bears

A PONTIAC sport coupe recently paid a visit to Yosemite National park to see the bears. According to the fair driver of this car, the valley is a paradise for bruin.

Richfield Adds New Laurels On Land, In Air

Victorious in the air, on the oval speedway at Altoona, Pa., and on Pikes Peak, Richfield, the "Gasoline of Power," has just added three more winning events to its long string of speed laurels, according to a report just issued by officials of the company.

Following the news that Loren Mendell's multi-air sedan in which he won the Oakland to Cleveland derby had been powered with Richfield, came the news of a "double header" victory on Labor Day with this gasoline used by winners in two widely separated places.

Lon Meyer, who won the Altoona speedway race on Labor Day, thus clinching the 1929 speedway championship crown, drove to victory with Richfield, the gasoline he has used throughout the 1929 racing season. I was noted in the official figures, covered the 11.9-mile course from Crystal

DOUBLE ROAD TRAFFIC SEEN

Highway traffic in California will be double the present status within 11 years, according to reports reaching the California State Automobile association. The volume of traffic on the state roads has increased at the rate of 9 percent annually for the past five years. If this continues, it will double by 1940, according to estimates of the State Highway Department.

One of the interesting features of the Division's biennial count of traffic which was taken at 156 separate stations in this state is that recreational traffic increased 21 percent, while the average increase on all traffic was 9 percent. Another interesting feature is that the traffic on interstate connections increased 75 percent, indicating that the influx of tourists from outside the state is increasing twice as fast as the traffic within the state.

This study would indicate, according to the Automobile association, that California must continue its systematic and progressive highway development work. Creek to the summit in 21 minutes and 43 seconds, winning the Penrose trophy.

Woman Makes Record Drive In Chrysler

The old idea of a woman's place being anywhere except behind the steering wheel is fast becoming a myth. Her accomplishments in the last decade over land and sea, by airplane, speedboat, and motor car, have rivaled all previous conceptions of feminine capability.

That transcontinental trip in automobile to longer hold terror for the modern woman driver is seen by a letter recently received by Harry Curry, local Chrysler dealer, from Miss Jessie McCauley, of Vallejo, Cal., who covered the 3,677 miles from the Chrysler factory at Detroit to San Francisco, in five days and 13 hours, an average of approximately 600 miles a day, in a new Chrysler coupe.

The drive was an unusually severe test—even for a man driver. Leaving Detroit in a car that had not been broken in, she made the first leg of 624 miles from Detroit to St. Louis in 19 hours, driving in the early morning through comparatively heavy traffic, fog and detours made necessary by floods. During the next day's driving, confessedly needs reduced the total to 441 miles and the third day brought her to Trinidad, Cal. and Raton Pass with 550 additional miles on the speedometer. Passing through the desert and Santa Fe, she stopped the following day at Barstow, Cal., with a total mileage for the day of 602. On the fifth and last day, Miss McCauley made the cut across the Mojave desert in a sand storm so fierce her speed was less than 30 miles an hour for hours on end. She arrived, however, at San Francisco, 849 miles from the starting point for the day, and five and a half days from Detroit. In her letter she said she made the entire trip without breaking the speed laws in any state from Michigan to California. Miss McCauley's trip is the more remarkable when it is taken into consideration that she only 5 feet 11 1/2 inches tall and weighs but 105 pounds. Her introduction to the automobile came 14 years ago when she experienced a severe illness and being unable to walk, took to driving. Since then she has covered approximately 200,000 miles at the wheels of 38 different cars.

"The Chrysler performed perfectly," was her only comment about the trip. "I should like to do it over again."

"Give Your Car a Treat"

NATION LAUDS NEW NASH, REPORT

KENOSHA, WIS., Oct. 19.—America as a nation of mechanical students, versed in the finer points of modern engineering and highly appreciative of every advanced and economic development made by the automobile industry, unrolled itself strikingly before officials of the Nash Motors company today.

The significant alertness and understanding of present day motorists was instantly apparent when C. H. Bliss, general sales manager, made a final analysis of the written comments which have poured in from every section of the country following introduction of the new Nash twin ignition eight and the win ignition six and single six—its companion cars of the company's "400" Series for 1930.

Contrasting vividly with the public interest which a few short years ago centered in relative car speeds, "looks" and obvious features, the wide range of intelligent approval and comment which has come to Nash on the new car announcements tide and in reply to the thousands of personal letters addressed by President C. W. Nash to owners of his original "400" Series cars, have engineering advancements, motor refinements and performance superiorities as their minor subjects. No one of the many mechanical advancements, such as dual manifold as adapted to twin ignition operation in the new eight, perfected cable operation of the new internal four-wheel brakes, integral counterbalancing of the new nine bearing crankshaft and equipment to the individual needs of all of the new cars, has escaped the expert public eye.

"Good looks and ample speed are essentials taken for granted by the majority of motor minded people who have joined in this hearty response to the latest Nash achievement," Bliss declared. "It is both gratifying and a mark of the times to note that both men and women motorists who turned out in record numbers to see the new Nash line looked deeply under the hood and into every new engineering feature after approving the advanced quality in appearance, body lines and appointments that form the first impression of the '400's' for 1930.

A number of cases the introduction audiences made a point of the Nash merchandising policy which reduced prices on the original "400" series far in advance of new car introduction in order to eliminate owner loss through depreciation. One comment pointed out that, irrespective of the wonderful mechanical and appearance achievements in the new cars, a big feature is the fact that Nash has not depreciated the investments of present Nash owners by this introduction.

"We feel that the greatest public and merchandising advantages of this new and perfected Nash line lies primarily in their unmatched engineering and performance achievements and that these exclusive features should give our organization an opportunity to secure a much greater volume of business during the coming year than was enjoyed last year. All of the comments we have received indicate that another sweeping success is in store for the Nash business family."

Open Windshield Menace To Driver

Opening the windshield may provide better ventilation on a hot day, but it is well to remember that serious accidents have occurred through having been blown through the open windshield and striking the driver. A piece of window screen may be stretched on a frame to safeguard the opening.

Repairs for Your Car

The best is none too good. You pay WHETHER you get it or not.

Don't risk inferior work. You owe it to yourself to come here where experience and equipment are second to none—where prices are fair—and where satisfaction and fair dealing are assured.

It will profit you to take advantage of what I have to offer.

Spark Plugs, Coil Life Of Motor

A weak spark or defective coil may be the cause of numerous troubles. The California State Automobile association cites some of these as slow getaway, loss of power, slow combustion resulting in loss of mileage, hard starting, engine missing on hard pulls, cutting out at high speeds, as well as excessive wear on pistons, cylinder walls and on bearings.

Pedestrian Toll Heads Auto Deaths

About 58 percent of all automobile accident fatalities result from motor vehicles striking pedestrians.

Chief Causes Of Accidents

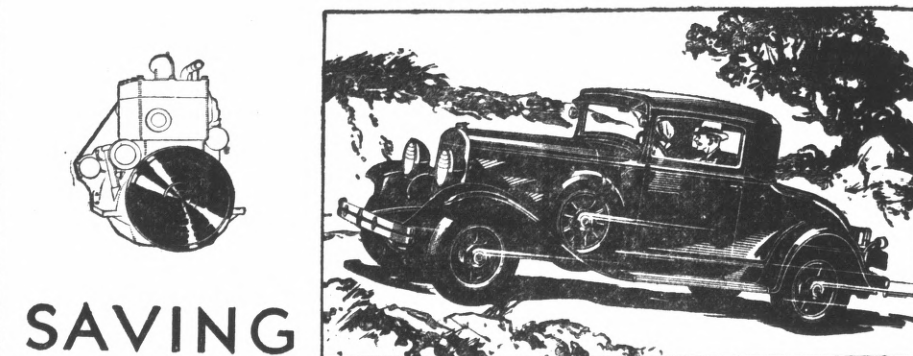

The five leading causes of automobile fatalities in the United States during 1928, according to the California State Automobile association, were reported as follows: pedestrian collisions, with 16,180 deaths; automotive vehicle collisions, 4369 fatalities; fixed object collisions, 1190 deaths; auto to train collisions, 150, and auto to street car collisions, 610 fatal accidents.

estrians, reports the California State Automobile association, and of the total of victims of such accidents almost one-third are children under 15 years of age.

Smokers Blamed For Forest Fires

Careless smokers constitute the principal cause of man-made fires in California outdoor areas, reports the State Forest Fires commission of California. They are charged with a total of 5648 fires in this state in the past seven years. The throwing of lighted matches or tobacco or other burning material from an automobile or other moving vehicle is prohibited by state law and the attention of motorists is called to the fact that a campaign of strict enforcement of this provision is now under way.

listing for less than \$1000

which offers all these

IMPORTANT FEATURES

Note the list of features below. These are features which are combined in the Pontiac Big Six and in no other car listing for less than \$1000. Come in and let us show you what these features mean to you. And bring your present car for our liberal appraisal.

- 1 A 200-cubic-inch L-head engine.
- 2 The Harmonic Balancer.
- 3 The G-M-R cylinder head.
- 4 The cross-flow radiator.
- 5 Automatic temperature control.
- 6 Fully counter-weighted crankshaft.
- 7 Interchangeable bronze-backed main bearings.
- 8 A 1 1/4-inch carburetor.
- 9 A gasoline pump.
- 10 Expansion-type piston pins.
- 11 Full-pressure lubrication.
- 12 Crankcase ventilating system.
- 13 Internal-expanding four-wheel service brakes.
- 14 Special moulded, non-squeak brake bands.
- 15 Special Bodies by Fisher.
- 16 Flaring fenders—70 inches across.
- 17 High radiator of distinctive design.
- 18 A variety of popular colors.
- 19 Tarnstedt interior fittings.
- 20 Fisher VV windshield.
- 21 Adjustable driver's seat.
- 22 Coincidental ignition and transmission lock.
- 23 Individually mounted instruments, including gasoline gauge.
- 24 Foot-controlled headlights.
- 25 Small wheels, ten massive spokes.

What Society Is Wearing

MRS. PHILIP RHINELANDER, 215 FAYOCE, IS WEARING FOX FUR COLLAR AND SPORT COAT

A light fox fur collar is a feature of the sports coat worn by Mrs. Philip Rhinelander, 215 at Hot Springs, Va. Double cuffs and wide reverses introduce an additional chic note. Like many fashionable frocks, Mrs. Rhinelander has slipped beneath her coat a finely patterned vest of sheer fabric. A double strand of pearls, small brimmed hat, light stockings and one strap slippers complete the smart ensemble.

Mrs. Rhinelander, with a group of well known folk from New York, is spending a few weeks at Virginia Hot Springs.

Baritone To Be Soloist Today At San Pablo

The guest soloist at the services tonight of the San Pablo Baptist church will be J. R. Glass, baritone. Tonight's program will be the third of a series of eight special programs which are being arranged by Mrs. H. A. Stahl, choir director. Several pipe organ selections will be presented by Miss Bonnie Sisson, organist.

"Influence of Loyalty" will be the subject of the message to be delivered by Rev. Harry Kern, pastor. This subject is appropriate at the present time, as the Church Loyalty Crusade is now being held by many cooperating denominations.

A roll call of church members will be called at tonight's service. The public is invited to attend.

The San Pablo Baptist church is situated on the corner of Twenty-second and Bush streets, four blocks beyond the Richmond Union high school. The service will begin at 7:30 o'clock.

Christian Science Lesson Subject

"Doctrine of Atonement" is the subject of the Lesson-Sermon today in all churches of Christ. Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass. The citations which comprise the Lesson-Sermon include the following from the Bible: "He is despised and rejected of men; a man of sorrows, and acquainted with grief; and we hid as it were our faces from him; he was despised, and we esteemed him not. But he was wounded for our transgressions, he was bruised for our iniquities; the chastisement of our peace was upon him; and with his stripes we are healed" (Isa. 53:3, 5).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus bore our infirmities; he knew the error of mortal belief, and with his stripes (the reflection of error) we are healed. Despised and rejected of men, returning blessing for opposite of themselves, even the nature of God." (p. 20.)

Clubwoman To Be Honored At Tea Monday

Richmond club women are planning to attend the international tea to be held tomorrow at the Woman's City club in Oakland in honor of Mrs. Ben Hooper, national chairman of International relations for the General Federation of Women's Clubs. The tea hour is four o'clock. Reservations may be made with Mrs. Lura Kent, president of the Richmond club.

LOCAL DRUIDS GOING ON BAY BOAT RIDE TODAY

Richmond and El Cerrito groves will join with other bay city Druids, in a boat ride around the bay today. After the cruise, the boat will make a stop at Mare Island, where the navy yards will be visited.

Mayor Paulsen To Be Speaker At First M. E.

Mayor A. L. Paulsen will speak this morning at 11 o'clock before the congregation of the First Methodist church on the west side. The occasion will be the observance of "Civic Day." There will be the third of seven loyalty Sunday services held by the First Methodist church. A number of West Side clubs, lodges, and organizations will take part in today's services.

'Neighbors' To Be Honored At Churches Today

The third Sunday of the Church Loyalty Crusade in Richmond is today, with "Neighbors' Day" service planned this morning and with special services for the young people at night.

Bradley Will Accompany Squad

D. M. Bradley, manager of the Richmond American Legion football team will accompany the squad to Santa Rosa today, where the locals will play.

Richmond Club Meet Postponed

The session of the Richmond club planned for tomorrow, has been postponed on account of the death of A. W. Thompson, husband of one of the club members, Mrs. Emma Thompson. The funeral services are to be held at 2 o'clock tomorrow afternoon.

H. G. Crawford's Back From North

Mr. and Mrs. H. G. Crawford and son Hugh returned yesterday from a visit to Winters and Sacramento.

Beacon Chapter Has Whist Party

Members of Beacon Chapter, Order of Eastern Star, entertained last night at a whist party in the Masonic hall.

Overnight End Colds

Stop a cold before it stops you. Take HILL'S Cascara-Bromide-Quinine. Stops the cold, checks the fever, opens the bowels, tones the system. Insist on HILL'S. Red box, 50c. All druggists.

Lights Golden Jubilee Will Be Broadcast

At least 13 nations throughout the world will celebrate "Light's Golden Jubilee" Monday in commemoration of the 50th anniversary of Thomas A. Edison's invention of the first practical electric incandescent lamp. Countries of both hemispheres have announced plans for cooperation in the extending of a world-wide expression of gratitude to the inventor of the electric light.

At Dearborn, Mich., where the festivities of Light's Golden Jubilee will center, a testimonial dinner will be given Monday by Henry Ford and attended by distinguished citizens of this country and representatives of foreign nations.

Meanwhile, in their homelands, the 50th anniversary of the invention of the electric incandescent lamp will be celebrated by special illumination displays, banquets, public lectures and exhibitions. The celebration in America will be marked by a broadcast of the anniversary fete, according to T. Iversen, of Iversen's Phonograph shop on Macdonald avenue near Tenth street, Iversen, who is exclusive dealer for the Edison radio and phonograph, reported that the broadcast will start at 4:30 Pacific Coast Time and will be broadcast by stations KPO and KGO of the National Broadcast chain.

60 ARRESTED IN PARIS RED RAIDS

PARIS, Oct. 19.—(UP)—France struck today the most drastic blow at communism in recent years, when a quiet investigation, which started ten weeks ago, was brought into the open. Police arrested sixty communists in raids, bringing the total now in custody to about 150.

Those held include Deputy Andre Mary, Communist leader, and three other members of the Chamber of Deputies, Cachin, Doriot, and Ducloux.

Deputy Held
Marty is held in the Sante prison for a fictitious interview published last winter, alleging to quote the late Marshal Ferdinand Foch, Ducloux had been sought for months and Cachin and Doriot have previously served jail terms. All are charged as leaders of the widely heralded "Red Day" demonstration August 1, when many communists confidently expected a revolution. French police and troops squelched the demonstration.

The Communists now under arrest face a double charge of threatening the interior and exterior security of the state. The raids may provoke diplomatic representations to the Soviet Union, in which the Soviet may be expected to explain how they reconcile diplomatic relations with France with a free reign for Communists to undermine the French state.

Plot Hit
Police announced that their investigation since Aug. 1 has uncovered documentary evidence that all of the men arrested were plotting with the aid of the Communist party against France. The Communist newspaper L'Humanite has charged that the raids were political attacks on the Communist party, but allegations on espionage have been made against the publication, naming specifically the directors, Cachin and Vaillant-Couturier. The directors are charged with responsibility for dissemination of military secrets and facts concerning the French arsenal, forts, powder magazines and the army.

The newspaper has also been accused of virtually inviting the public to organized sabotage, mutiny and disorder.

Manuel Calderia Seeking Divorce

MARTINEZ, Oct. 19.—Suit for divorce was today filed by Manuel Calderia of Richmond against his wife, Mrs. Minnie Calderia, charging cruelty. Custody of two minor children is asked by the plaintiff who is represented by C. D. Horner.

SUE CAROL HERE IN COMEDY PICTURE

Catchy musical numbers, a rapid fire musical comedy that keeps the audience in constant laughter, a new dance that promises to outdo the variety drag in popularity, and a stellar cast are some of the features of "Imagine My Embarrassment," the all talking, dancing Fox Movietone musical comedy version of the noted stage success "Cradle Snatchers."

The cast is headed by Walter Chatlett, Sue Carol and Nick Stuart, and among the supporting players are David Rollins, Richard Keene, Dixie Lee, Jean Barry, Ted Prouty, Ika Chase, Laura Hamilton, Gordon DeMain and Dot Erikey.

Three college youths "date up" as many chorus girls for the evening, but are compelled to call the party off for lack of funds. To get money they agree to instruct three married women in the latest "technique" of dancing and kindred entertainment. The husbands of the women are supposed to be off on a hunting trip, but in reality are "stepping out" with the three chorus girls.

The boys and the women also decide to go to the same roadhouse for the evening, and as it is a costume and masquerade affair, the various participants fail to recognize one another. But later, a small riot ensues, and comic situations come thick and fast up to the whirlwind finish.

Directed by Raymond Cannon, "Imagine My Embarrassment" has good claim to being one of the funniest and most entertaining talkies to date. Walter Chatlett, musical comedy star, who wrote the dialogue, also plays the male lead.

Conrad Mitchell and Götter, the song writers wrote these numbers: "Look What You've Done To Me," and "Doing The Boom Boom" the latter being the theme of the dance feature as well as already two of the season's hits, although the film has been released but a short time.

The "Boom Boom" dance, a catchy ballroom step that is sweeping the country, originated in this picture. Dance teachers prophesy for it a popularity greater than the Varsity Drag. "Imagine My Embarrassment" closes its engagement tomorrow night.

Also on the bills is the fourth chapter of the talking serial "King of the Kongo."

Mannerchor To Give Concert

The annual concert of the Richmond Mannerchor will be given on Nov. 9, at Winters ballroom. Committees are being made by the organization to prepare for the program and a dance to follow. The Mannerchor will introduce new talent, including some of the best in the bay district for the coming concert.

Laundry Workers Plan Halloween Party Oct. 22

It was announced at the last meeting of the Laundry Workers' union, that a Halloween party would be held after the next meeting, on Oct. 22 in the Brotherhood hall. Mrs. Louie Walker is in charge of the frolic.

All members of organized labor, and their families are invited to attend.

Official Attends Boilermakers Meet

Harry Norton, international vice-president of the Boilermakers' union, visited the local union, 317, at its last meeting, and told of conditions in the east. Norton has just returned to the coast from his journey.

District Organizer Mike Cabett, was also present, and reported on conditions about the bay.

Theresa Heester claims the honor of being the only woman yacht broker in the world.

Scout Leaders To See First Aid Exhibit

J. B. Corrie, troop committee man of Boy Scout Troop No. 5 and T. G. Gray, county Boy Scout Court of Honor chairman, will be the speakers at the session of the Scout Leaders Training school tomorrow night at the Lincoln school.

Corrie will speak on the duties of troop committee members, while Gray will talk on the Court of Honor methods. A demonstration of first aid will be presented to the school by the Richmond Fire department, it was announced.

Members of the school, which is headed by Robert E. Cox, Richmond Scout executive, held an overnight camp last night at Alvarado park.

Noted Musicians Play Berlin Aired In 'Cocoanuts'

Concert masters and first violins from many of the most famous symphony orchestras in the country play in the thirty piece orchestra accompanying the Marx Brothers in the talking screen's first musical comedy presentation, "The Cocoanuts," which will show at the Fox California theater, beginning Tuesday for 2 days.

Among the better known musicians in the group are Maximilian Pilzer, former concert master with the New York Philharmonic; Michael Gusikoff, for ten years concert master with the Philadelphia Symphony; Louis Raderman, one of the most popular recording and radio violinists in the United States; Edward Vito, harpist, formerly with the Chicago Symphony, and Sam Lewis, trombonist, a member of Paul Whiteman's original band.

The orchestra was directed by Frank Tours, musical director for the studio. Tours held the same position in the stage production of "The Cocoanuts," Irving Berlin composed all of the music for "The Cocoanuts," the theme song, "When My Dreams Come True," having been written especially for the Paramount production.

Blackmer Gives Shed To Golf Club

PARIS, Oct. 19.—UP—Harry M. Blackmer, who chose to play golf in France rather than return to America in connection with the Teapot Dome oil lease investigations, has presented the Saint Cloud golf club with a \$500 driving practice shed for rainy days. Approach of the rainy season found scores of French and American golfers gathered in the shed and practicing driving balls, but the caddies were almost ready to riot.

The discontented caddies decided today to ask Blackmer for an additional donation to provide oilskins for them.

A tribute to Thomas Alva Edison on Light's Golden Jubilee

As a tribute to Thomas Alva Edison, inventor of the incandescent electric lamp, we have prepared a 32-page booklet containing 27 beautiful full-page pictures, 8 by 11 inches. They show the ancient people, in their quaint dress, using the lamps of Babylon, of Rome, and lamps that were handed down through the dark ages. The booklet traces the development of today's lighting and shows the revolutionary discoveries, during the last few years, of correct home lighting.

This booklet is called "The Romantic Evolution of Light." Give us your name and address over the telephone and we'll mail you a copy. Or use the convenient request form below. The booklet is free.

THE RECORD-HERALD

FALL ATTORNEY TELLS OF WAR SCARE

WASHINGTON, Oct. 19.—(U.P.)—Former Interior Secretary Albert B. Fall's lawyers completed the defense case in his bribery trial here today with more "1921 Pacific war scare" testimony.

The 68-year old defendant did not testify.

Closing arguments will start Monday with each side allowed three hours. This will permit Justice William Hitz to charge the jury Tuesday.

The climax to the defense, which holds that National Security reasons—not the \$100,000 which E. L. Doherty gave to the then cabinet member—accounted for the Elk Hills-Pearl Harbor oil lease and contracts was furnished by Secretary of the Navy Adams.

Captain H. T. Stuart of the Navy, answering a subpoena for the confidential reports of Admiral Albert Gleaves on the Asiatic Naval situation, reported Adams considered it was "not compatible with the public interest" to make them public.

These allegedly alarming reports were made while Gleaves was serving in Asiatic waters in 1921. According to the defense, these and similar reports formed the basis of Admiral J. K. Robinson's arguments urging Doherty to bid on the Elk Hills lease.

Aim Scored
The prosecution has contended the navy attached little importance to the Gleaves report inasmuch as the Washington arms conference, which met in November, 1921, before the Elk Hills lease was made, definitely banished the danger of war in the Pacific.

Robinson proposed to get Doherty's oil company to build 4,600,000 barrels of oil tanks at the strategic Pearl Harbor, Hawaii, and fill them with fuel oil for the United States fleet.

J. C. Anderson, Los Angeles, Doherty company executive, testified also Admiral Robinson told him in 1921 the Pacific situation was serious, and that the navy urgently desired the Pearl Harbor tankage. Anderson said he was surprised to learn that Robinson was willing to lease the entire Elk Hills reserve for this purpose.

Fall Landed
Hogan read to the jury, over government objection, the famous letter to the senate by President Harding in June, 1922, approving the Elk Hills and Teapot Dome leases in detail.

Fall's wife and his daughter, Mrs. C. C. Chase of El Paso, were called to the stand by the defense to relate conversations with Fall shortly after he received the \$100,000 from Doherty, designed to indicate that he considered it a debt, not a gift. The government objected and blocked their stories. Mrs. Fall told of Fall's arrival at El Paso with the money, however. She said she and Fall had been married for 48 years.

Former Governor George Curry of New Mexico, a member of Roosevelt's Rough Riders and a

Texas, Oklahoma In Battle Over 'No Man's Land'

OKLAHOMA CITY, OKLA., Oct. 19.—(U.P.)—The battle for 23,000 acres of waste land, the grazing land disputed by Texas and Oklahoma, shifted from Oklahoma's western front and the capitals of the two states to the nation's capital tonight.

With departure of Governor Hollaway and Attorney-General J. Berry King of Oklahoma late yesterday for Washington, the matter was being carried to the seat of the dispute—the United States Supreme Court where survey order discovered a discrepancy in the hastily determined boundary of the two frontier states.

The Oklahoma officials will appear before the supreme court on Monday in an effort to delay action of the boundary case by asking postponement of the court's acceptance of the survey giving a 130 mile long strip along the state's western boundary to Texas.

Oklahoma and Texas legislative committees have worked out an agreement for submitting to the next Texas legislature a proposal for Oklahoma to buy the disputed territory to validate titles held by Oklahoma farmers.

Ignatius Beats Bear Reserves

Scores came thick and plentiful in the game between St. Ignatius and the California reserves yesterday at the Memorial stadium, with the Saints coming out on top by a score of 20 to 12.

California scored after the second quarter was half over, and did not convert, but the Grey Fox evaded the score shortly after by intercepting a pass. The try for point was successful, putting the Saints ahead, 7-6.

The next score came in the third quarter, California scoring another touchdown, and not making the place kick good. St. Ignatius retaliated with two more touchdowns and the final score was 20-12.

Driver Fined On Wheel Charge

F. G. Valarde, 215 Franklin street, San Francisco, was fined \$5 by Justice of the Peace Arthur Alstrom yesterday on a charge of driving his six-wheeled truck with two of them raised off the ground. This was the first fine ever paid in the bay region on this charge.

The arrest was made by Traffic Officer Charles Nissen.

The wheels which were raised are used when the truck is loaded. Valarde was driving the empty truck with the extra wheels lifted.

Eugene Black On Tax Board
WASHINGTON, Oct. 19.—(U.P.)—Appointment of Eugene Black of Clarksville, former representative from Texas, to be a member of the United States Board of Tax appeals, was announced at the White House today.

former congressman, and several other New Mexicans, testified that Fall's reputation in his home state was "the very best."

Aviatrix Recovering

VIOLA GENTRY, injured in plane crash in which Jack Ashcroft was killed, left her bed the other day for the first time since the accident. She's shown in wheel chair in Nassau, New York hospital.

TRIO TO PLAY 'LEAK' RUMORED AT CHURCH TODAY

The Orpheus Trio, well known Richmond instrumental ensemble, composed of Miss Vivian Vaughan, piano; Miss Audrey Wilson, violin; and Miss Madeline Whitley, cello, will feature the "Young People's" services at the Wesley Methodist church tonight.

The newly elected officers of the Epworth League will be installed by Rev. C. G. Lindemann, pastor of the local church. Short talks will be made by Miss Pearl Jenkins, Carl Black and Miss Mildred Cuthbertson.

Reynold Carlson, secretary of the Richmond Y. M. C. A. will "speak on the subject of 'Heroes.'" A "Neighbor's Day" service will be held at the morning service today at 11 o'clock. Special music will be presented by Bert Scoble, soloist, and Miss Geraldine Ripley, soloist, and Miss Geraldine Ripley, soloist, and Miss Geraldine Ripley, soloist.

"Who Is My Neighbor?" will be the sermon topic.

Rioters Attack Census Takers

VERA CRUZ, MEX., Oct. 19.—(U.P.)—Minor riots were reported today in several settlements where government officials have been attempting to take a census.

The census commission's difficulties are due to illiteracy in most cases, the people fearing the information will be used to increase taxes.

No one could be appointed to take the census in some settlements because no resident could read or write.

The mayor of Vera Cruz has been attempting to get a correct census for the first time since 1922.

Protect Your Furniture

A \$1.25 to Rid Your Home of Moths May Save You Hundreds of Dollars.

MORTEMOTH KILLS MOTHS

The gas from Mortemoth crystals not only protects your furniture for a long time, but contact with it kills all moths, their eggs and their dangerous larvae in furniture which is already infested.

The proper method of using Mortemoth crystals is to place them in small sacks, and to place these sacks down in the channel of the piece, as deeply as possible, behind the cushions, so that, upon expansion, the gas will spread and fill the spring units in the back and in the bottom of the piece.

When the sacks are empty, fill them again.

—RAGS WANTED—

SAN PABLO TO PLAY GAS NINE

Ted Crist, San Pablo baseball magnate, owner and manager, will send his strong aggregation into the field against the Pacific Gas and Electric team of Oakland at the San Pablo ball diamond at 2:30 this afternoon.

Crist has signed up a bunch of players of the highest calibre and he expects that his cohorts will finish far in the lead at the end of the Oakland Mid-winter baseball league season.

Crist has his choice of two good pitchers, Jacobson and Ball. The latter is a six footer, weighing 203 pounds and with an arm that is a flash, according to the pre-game ballyhoo.

Brown Recruit
Ball was formerly with the Washington Timber league, and has been signed up by the St. Louis Browns to report to spring training camp.

As a catcher, Crist has Bill Gualdoni, admitted to be one of the best semi-pro receivers in this district. Bill, it will be remembered, signed with the Hollywood Stars last season, was farmed out to the Arizona State league and then had a bad streak of luck that kept him out of the games. However, his batting average is well up in the .300 column.

Good Lineup
Bill Church of Springfield, Ill., will occupy the initial sack. Marty Tierney will play at second; Manuel Silva, St. Mary's star, will be at shortstop and Ernie Peters of the Tulsa, Okla., club will be at third base.

Anderson from Wichita Falls will be in the left garden. James McEarchen, San Jose state leaguer will be in center field and either Tony Gregory or Will Wiskesser will play in right field. Khaki Molozza will be utility man.

Altogether, Crist has one of the best looking lineups in the bay region.

2 Men Rob S. F. Bank Of \$2500

SAN FRANCISCO, Oct. 19.—(U.P.)—Aligning six customers and four employees against the wall, two men held up and robbed the Hayes and Octavia street branch of the Bank of America of \$2,500 before noon today.

After scooping up all the cash and currency in sight the robbers walked to the car where three other men were waiting. The car sped away.

According to eye witnesses, the bandits entered the bank with drawn weapons, ignoring the possibility of a noon hour crowd.

Calling a few terse orders to stick 'em up and face the wall, they swiftly dumped the money into a satchel and then walked out.

The series of raids, heralded as smashing a major liquor importing and distributing organization, are still regarded as one of the biggest strokes in eastern dry enforcement in many months. But with signs of some dissection in the raids, it was indicated today that the raids had perhaps proved to be a more or less hollow victory.

This theory was based on the fact that some of the wanted leaders of the immensely rich liquor "empire" were out of the country when the blow struck, and are still missing. Further, the Shawnee, regarded by the government as one of the chief liquor transporters of the city, had apparently received a mysterious warning which gave her time to slip out of the searchers' grasp.

Local Men Hurt In Auto Crash

Ralph Pallitti, 24, 623 Tenth street, Richmond, and Frank Perilli, 18, of El Cerrito, sustained severe injuries, when a motorcycle which they were riding, crashed into a parked automobile at San Pablo avenue and Virginia street, Berkeley, recently.

Perilli received a fractured leg and Pallitti, received fractures and bruises. Both were rushed to the Humboldt hospital for treatment.

Aviator Killed While Stunting

day morning will be "Surprise Day" AMILLO, TEX., Oct. 19.—(U.P.)—While stunting at 500 feet over the municipal airport here today, Roy Morris, 32, Kansas City aviator, was instantly killed when his tiny biplane went into a spin and crashed.

Morris was employed by an airplane manufacturing company located at Lincoln, Neb., and was a veteran flier. At the time of the crash he was giving a demonstration of stunt flying.

Boy Scouts Play Football Today

Troops 3 and 11 of the local Boy Scouts will tangle in a grid game today in Nicholl park at 1:30 o'clock. Carl Rasmussen will captain the gridlers of troop 11, and Lewis Rasmussen will lead troop 3 in today's contest. A large group of spectators is expected to be present at the game.

FOR RENT—FOUR ROOMS, PANTRY, bath, garage, \$20. 326 Twentieth street, near Macdonald. 10 20 31.

—RAGS WANTED—

GOLDEN BEARS DEFEAT PENN ELEVEN

(Continued from Page 1)
A 35-yard pass to Bob Norton, who plunked over for the winning touchdown.

Captain Roy Riegels, the boy who always will be remembered because he ran the wrong way with a fumbled ball last New Year's Day, was a demon on the defense today, taking part in half the tackles made by his team.

Hits Hard
He and the other big forwards from the far west brought returning to earth so severely at times that the ball toilers had to be picked up and straightened out before the game could go on.

Benny Lom, who opened the game with a 50-yard dash through the entire Pennsylvania team in the first kick-off, was over the bright star of the California backfield on the attack, although to Ed Griffiths went the credit of carrying the ball over for the first touchdown. Griffiths, who started at right half in place of Stan Barr, hurried over the Red and Blue line after he and Lom and Joe Hick (brother) had advanced the ball from midfield.

Part of California's success, however, and a most important part at that, was due to the defensive playing of Leland Elsan, the little quarterback, who was usually to be found skipping merrily back with Pennsylvania punts for heavy yardage.

Bears Tire
After the Bears had scored for the second time, they seemed to win the game. Lou Young rushed in an arm of substitute in the second half but "Nibs" Price kept the stars on the job until the finish. It seemed as if California was merely trying to protect its lead, playing for safety and content to win the one touchdown.

Only towards the end was there a sign of the dashing offense with which the westerners opened the game.

Powerful Attack
Starting from their own 25-yard line, the Bears swept 75 yards to within the last chalk line.

But they couldn't cross that last one. Benny Lom was given the ball four times, and four times he failed to gain. On the fourth try, he threw a pass over the goal line, but Morton Wilner Penn's quarterback, batted the ball into the end zone and Penn took it on downs.

The Red and Blue tried 23 forward passes, mostly in the last period and completed 12 of them, mostly short ones. As for the Bears, they tried only eight, six of which were successful. California gained 88 yards on these six passes, or just about enough to offset their penalties.

Penn's were good for 66 yards. Both elevens advanced to nine first downs.

Oregon State Crushed By Cardinals

(Continued from page 1)
aside. Smalling tossed a pass to Mush Muller who then ran 20 yards for a touchdown. Smalling passed to Fentrup for the extra point.

In the second quarter the Cardinals worked the ball down the field to a position where Smalling could climb over right guard for a touchdown. Fentrup failed to convert.

A few minutes later the march went down the field. The scoreboard registered 26 as Smalling passed to Muller for 15 yards who in turn passed laterally to Cagliari. The latter ran 23 yards for the score. The try for point failed.

Winnek Scores
A few seconds after the half opened, Winnek received a lateral pass from Dush and ran 38 yards for a touchdown. Moffatt kicked the extra point.

At the opening of the fourth quarter Smalling advanced the ball to the Oregon three yard line and Moffatt scored on a reverse. Winnek converted.

Howard Jones, coach of the U. S. C. Trojans was in the stands and scouted the Cardinals in preparation for their game next Saturday.

Thomas Nine Will Start Season Today

With Mayor A. L. Paulsen scheduled to pitch the first ball, the Thomas Motors squad will play its first game in the Oakland Mid-winter league as the First Street field today, meeting the Oakland Eagles.

The Oakland team won the championship last year in the winter league.

Manager Bud Lewis and L. J. Thomas, owner of the club, are confident that their team will win the flag this year.

Vestal Returns From Conclave

Tom Vestal, local delegate to the Barber's convention in Indianapolis, has returned to Richmond after a five week absence.

Vestal, who is secretary of Barber's local No. 508, and his wife, who accompanied him, report a very successful trip.

Motorist Freed On \$500 Bail

John Evalstad, of Alvarado park, who was arrested Thursday night on charges of driving while under the influence of intoxicating liquor, was released recently on \$500 bail. He was arraigned before Judge C. A. Odell who has not yet set a date for the trial.

Evalstad was charged by William Chortlon, 1363 San Pablo avenue, with responsibility for a collision with his car at Esmond avenue and Twenty-eighth street.

MILK, the Builder

Since pioneer days, milk has been the "standby" of those who would be strong and healthy. Today the busy housewife or the workman realizes that milk is the real body builder; a delightful, economical food that furnishes needed energy. Milk is a "protective food." Use more of it for your health's sake.
